Presentations

DATE: July 18, 2023

FROM: Marisol Vidales, Library Director

ITEM: **Presentation by Texas Children in Nature Network, Rio Grande Valley Health and Nature Liaison, regarding Children's Outdoor Bill of Rights.**

BACKGROUND INFORMATION:

The Dr. Hector P. Garcia Memorial Library started working with Texas Children in Nature (TCiNN) in September of 2022. After the liaison, Mrs. Marisa Oliva, presented at a monthly Hidalgo County Library System meeting I became very interested in becoming a Nature Smart Library. Through this partnership the library was one of the six public libraries in the Rio Grande Valley to receive the LEAP backpacks which were funded by Driscoll Health. The next item that we are tackling on both a city and regional level is creating a Children's Outdoor Bill of Rights. At this point in time we are in the surveying segment of the process. The plan is also to create a resource map, establish partnerships within our city, create the Children's Outdoor Bill of Rights, and eventually have the city adopt them. In order to provide more information regarding this initiative I invited Mrs. Marisa Oliva to present to you today.

CHILDREN'S OUTDOOR BILL OF RIGHTS

A COMMUNITY VISION STATEMENT

COBOR

Designed to promote equitable access to nature by establishing a common foundation and high aspirations for nature connection in a community

"It's about galvanizing residents and partners to bring about the programs, policies, funding or activities needed to help children develop a relationship with nature"

*~Monica Lopez Magee,
Director of Cities and Community
Engagement, CNN*

WHAT IS A COBOR

- a list of outdoor experiences that every child has a right to experience.
- A public-facing symbol of the overarching goals a city or state has for its children's outdoor experiences.
- A messaging tool that raises awareness of the importance of children's connection to nature.
- A mayoral proclamation, a City Council resolution, a value statement, or a framework for a program.

WHO IS ENGAGED?

- 1 Families
- 2 Children & Youth
- 3 Mayor & City Council
- 4 Govt Agencies
- 5 Partners

BENEFITS

- Articulate a community's commitment to equitable access to nature for all children.
- Galvanize the community and city leaders in a shared vision for children's access to the outdoors.
- Raise awareness of the benefits of children's nature connection

RELATED CITY PRIORITIES

Can reflect multiple city/county priorities, such as:

- equity & inclusion
- family & community engagement
- youth development
- parks and green space access
- regional trails
- children's health and well-being

LESSONS LEARNED

COBOR conversations provide an opportunity to launch or reinforce citywide collaboration. Efforts to develop a COBOR allow for partnerships between school districts, the county health department, federal partners, grassroots collaboratives, and others to create a citywide vision for children's access to nature.

COBOR can serve as a platform to launch or promote a new initiative or program. Cities can use the launch of a COBOR as an opportunity to highlight another nature connection program such as green schoolyards or outdoor nature programs already in place.

Develop COBOR with an eye towards equity. Use equity zone mapping to determine where children lack access to their outdoor rights and need further resources and programs.

CASE STUDIES

By 2020, 15 states and six cities had or were developing COBOR's. Examples include:

- San Francisco, CA (2014) passed as a resolution
- Austin, TX (2017) passed as a resolution
- Salt Lake City, UT (2018) activated as a program
- Baltimore, MD (2019) introduced by the Mayor, passed as a resolution

Memorandum

To: Nereida Perez, Finance Director

CC: Alberto Perez, City Manager

From: Robert Castillo, Public Works Director 

Date: Tuesday, May 2, 2023

Subject: London Fog Model 18-20 ULV Aerosol Generator

Public Works respectfully requests for the approval of a purchase order for the procurement of a mosquito fogger much needed for the City of Mercedes. Three quotes have been obtained by different vendors but Phesco International although costing \$1,349.00 higher than the lowest quote, it includes freight, on-site calibration and training for employees. Additionally Phesco International has one fogger ready to be shipped with a lead time of 4 days which is very critical for the City since we should commence spraying as soon as possible. Being that current mosquito fogger is not operational.

As per Phesco International, once PO is issued he can guarantee that fogger with training and calibration should be available as soon as next week.

Kind Regards,

Robert Castillo, Public Works Director

**MODEL STAFF REPORT REGARDING TEXAS GAS SERVICE
COMPANY'S STATEMENT OF INTENT TO INCREASE RATES IN THE
RIO GRANDE VALLEY SERVICE AREA**

**ACTION MUST BE TAKEN TO SUSPEND THE EFFECTIVE DATE ON OR BEFORE
AUGUST 23, 2023.**

On June 30, 2023, Texas Gas Service, a Division of ONE Gas, Inc. (TGS or Company), filed a Statement of Intent seeking to increase gas utility rates within the incorporated areas of the Rio Grande Valley Service Area (RGVSA). The affected Rio Grande Valley municipalities include the cities of Alamo, Alton, Brownsville, Combes, Donna, Edcouch, Edinburg, Elsa, Harlingen, Hidalgo, La Feria, Laguna Vista, La Joya, La Villa, Los Fresnos, Lyford, McAllen, Mercedes, Mission, Palm Valley, Palmhurst, Palmview, Penitas, Pharr, Port Isabel, Primera, Progreso, Rancho Viejo, Raymondville, Rio Hondo, San Benito, San Juan, Santa Rosa, and Weslaco, Texas (RGV Cities). In the filing, the Company asserts it is entitled to a \$9.81 million revenue increase from RGV Cities or an 25.94% increase over current adjusted revenues, excluding gas costs.

TGS has received annual rate increases in each of the past five years based on a cost-of-service (COS) tariff approved by the cities. Under the COS tariff, it was not necessary for cities to pass suspension resolutions. A traditional rate case requires cities with original jurisdiction to act to suspend, deny, or approve the Company filing before the effective date. Cities must pass the suspension resolution by August 23, 2023.

The law provides that a rate request made by a gas utility cannot become effective until at least 35 days following the filing of the application to change rates. TGS has proposed an effective date of August 23, 2023. The law permits the City to suspend the rate change for 90 days after the date the rate change would otherwise be effective. **If the City fails to take action regarding the filing before the effective date, TGS' rate request is deemed administratively approved.**

The purpose of the resolution is to extend the effective date of the Company's proposed rate increase. The resolution suspends the August 23, 2023 effective date of the Company's request for the maximum period permitted by law to allow the City to evaluate the filing, determine whether the filing complies with law, and if lawful, to determine what further strategy to pursue, including settlement and ultimately to approve reasonable rates. The Resolution must be passed before August 23, 2023.

Explanation of “Be It Resolved” Paragraphs:

Section 1. This section incorporates the “whereas” provisions in preamble into the Resolution.

Section 2. This section confirms that the City is authorized to protect the interests of the City and TGS customers residing in the City.

Section 3. The City is authorized to suspend the rate change for 90 days after the date that the rate change would otherwise be effective so long as the City has a legitimate purpose. Time to study and investigate the application is always a legitimate purpose. Please note that the resolution refers to the suspension period as the “maximum period allowed by law” rather than ending by a specific date. This is because the Company controls the effective date and can extend its effective date and, therefore, extend the deadline for final city action to increase the time that the City retains jurisdiction (for example, if necessary to reach settlement on the case). If the effective date is not otherwise extended by the Company, the City must take final action on TGS’ request to raise rates by August 23, 2023.

Section 4. This section authorizes the hiring of outside attorneys and consultants to work on this matter.

Section 5. This section provides that the City shall work in coalition with the other affected Rio Grande Valley municipalities to review and evaluate TGS’s filing.

Section 6. By law, the Company must reimburse the cities for their reasonable rate case expenses. Legal counsel and consultants approved by Cities will present their invoices to the City of McAllen which will then seek reimbursement from Texas Gas Service. The City will not incur liability for payment of rate case expenses by adopting a suspension resolution.

Section 7. This section merely recites that the resolution was passed at a meeting that was open to the public and that the consideration of the resolution was properly noticed.

Section 8. This section provides that both TGS’ designated representative and counsel for Cities will be notified of the City’s action by sending a copy of the approved and signed resolution to certain designated individuals.

Section 9. This section identifies the effective date of the Resolution as the time it is adopted.

Recommendation

The City Staff recommends adoption of the resolution suspending the effective date of TGS’s proposed rate increase.
